

Suraj Kumar

Backend Developer

surajskrv@gmail.com

— linkedin.com/in/surajskr

— github.com/surajskrv

Professional Summary

Backend-focused full-stack developer with hands-on experience building scalable web applications using Flask, Node.js, React, and Vue.js. Strong foundation in REST API design, database architecture, and asynchronous processing using Celery and Redis. Focused on developing production-ready backend systems with clean and maintainable architecture.

Education

Bachelor of Science – Data Science & Applications

Indian Institute of Technology (Online Program)

Jan 2024 – Dec 2027

Master of Computer Applications (MCA)

Indira Gandhi National Open University (IGNOU)

Jul 2025 – Jul 2027

Technical Skills

Programming Languages: Python, JavaScript, SQL

Backend: Flask, Express.js, Node.js, RESTful APIs, SQLAlchemy, Redis, Celery, Basic Java

Frontend: React.js, Vue.js, HTML5, CSS3

Database: PostgreSQL, MongoDB

Cloud and Tools: Git, GitHub, Docker (basic), GCP (Compute Engine), Linux, Postman

Concepts: Backend Architecture, RBAC, Asynchronous Processing (Celery, Redis), Modular Design

Projects

Printrationcard – Ration Card Printing Service

React — Node.js — Express — MongoDB

[Live Link](#)

- Developed reusable React components for dynamic content rendering.
- Integrated the frontend with backend REST APIs for seamless data flow.
- Collaborated in the deployment of the application on a live production domain.

WheelSpot – Smart Parking Management System

Flask — Vue.js — PostgreSQL — Celery — Redis

[Live Link](#)

- Designed and developed RESTful APIs for booking, user management, and admin operations.
- Implemented Role-Based Access Control (RBAC) for secure multi-user authorization.
- Built asynchronous background tasks using Celery and Redis for scheduling and automation.

CuraNet – Healthcare Management Platform

Flask — Vue.js — SQLAlchemy

[Live Link](#)

- Developed backend APIs for appointment scheduling and treatment management.
- Designed relational database schemas for efficient and structured data storage.
- Integrated frontend modules with backend services for dynamic updates.

Certifications

- Diploma in Programming – IIT Madras
- Full-Stack Development Bootcamp – upGrad
